| 73 | (b)(5) (b)(7)(E) | Item #6 addresses the mapping of radio repeater stations which are a critical part of the backcountry communications system. This system is one of the safety measures available to the ranger and, because of possible criminal activity in the park make it necessary to protect radio information and techniques and procedures under Ex 7E. The redacted section also reflects the thoughts and recommendations of the ranger to his supervisor, and is therefore protected from release by Exemption 5. |
